

# Invitation for National Seminar on Electrical Fire Safety in Public Buildings

**Venue:** Hotel Hindustan International, 235/1 AJC Bose Road, Kolkata 700020.

**Date:** 13th Sept. 2019 | **Time:** 11.00 a.m. onwards

## Background

India is one of the fastest growing economies in the world backed by liberalisation of Government regulations (ease of doing business), Make in India and higher investments in infrastructure. In order to ensure the momentum for this growth, the Government is working to create and promote excellent electrical infrastructure, thereby providing for numerous opportunities for all the sectors.

Government of India has also emphasized on the importance of robust electrical power generation, transmission and distribution to cater to the increasing demands of the country. With increased investments and need for building quality electrical infrastructure, it is imperative that Government lays high emphasis on fire safety in India. The recent incidents of fire hazards across the country owing to electrical short circuits and overloads, demonstrate the need for increased investment to ensure stringent safety measures.

## Proposed National Seminar on Electrical Safety in Public Buildings

To support the efforts of the Government, PCA in association with FSAI has taken initiative to create awareness about the importance of right type of cable selection in public buildings. A series of seminar are planned to address this topic of electrical safety in public buildings. The third seminar in this series is scheduled on 13th Sept in Kolkata.

### The seminar will address the following topics

- Fire Survival Cables and FRLS Cables
- Best Installation practices in Hotels and Hospitals
- Rules, Regulations & Standards for Fire Safety
- Importance of Right Quality of Jointing & Termination
- Panel discussions on Electrical Fire Safety.

### Target Group

- Electrical Engineers from Govt. Depts.
- Electrical consultants
- Electrical HODs of hospitals, hotels, malls, maintenance personnel, etc.

### About PCA:

Power Cable Alliance (PCA) is an association of organizations and individuals working together to promote the creation of safe, reliable, efficient and high-quality electrical infrastructure in India through copper power cables. As a part of International Copper Association India, a non-profit organization, our aim is to promote the use of copper for sustainable development. Our headquarters are in Washington DC.

### About FSAI:

Fire & Security Association of India (FSAI) is a non-profit organization established in 2002 representing the Fire Protection, Life Safety, Security, Building Automation, Loss Prevention and Risk Management domains. Its primary aims and objectives are to: Foster a spirit of safe living among all citizens of India and inculcate a proactive mind-set towards safety and security at all times.
